

Percentages, fractions and decimals

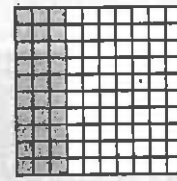

Know percentage and decimal equivalents of fractions

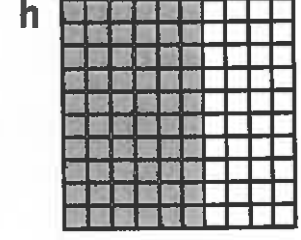

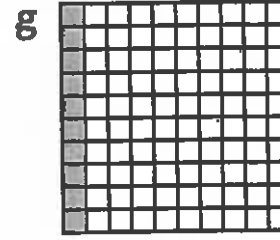

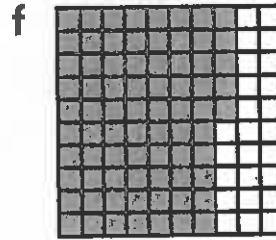

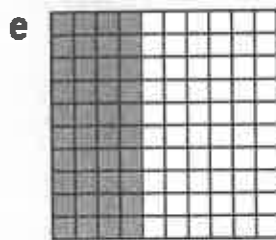

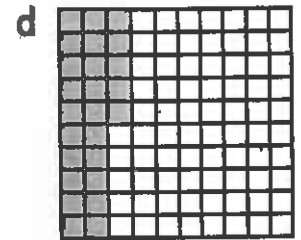

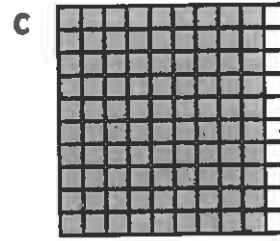

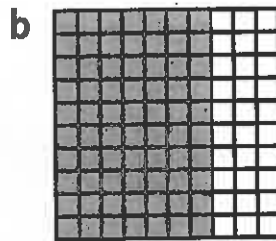

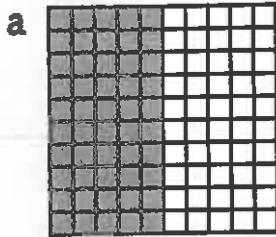

Challenge

1 Write the equivalent per cent and fractions for each 100 grid.

Example

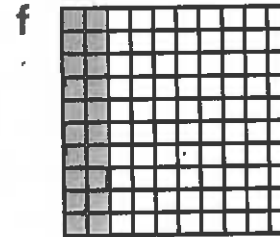

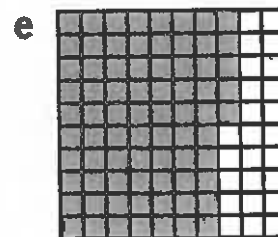

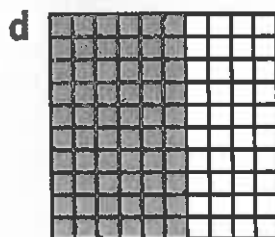

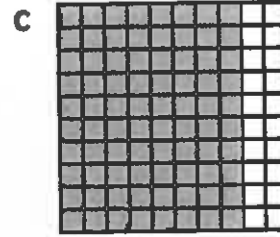

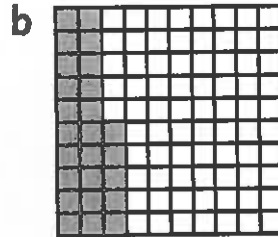

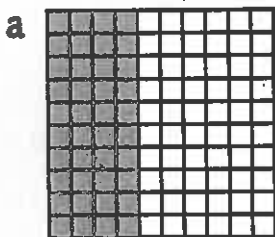

$$30\% = \frac{30}{100} = \frac{3}{10}$$

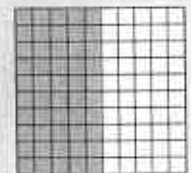

Challenge

2 1 Write the equivalent per cent, fractions and decimals for each 100 grid. One of your fractions should be a quarter or a fifth.

Example

$$50\% = \frac{1}{2} = \frac{2}{4} = 0.5$$
